SUMMARY

Software Engineer (SDE Intern at TruEstate) building production full-stack systems with TypeScript, Next.js, NestJS and SQL, and Generative AI applications using RAG, LLM agents, LangChain and LangGraph. LeetCode Knight (top 5%).

EDUCATION

Indian Institute of Information Technology, Nagpur — Nagpur, India
Bachelor of Technology (B.Tech) in Computer Science and Engineering; CGPA: 8.94/10 — *Aug 2023 – May 2027*

Indian Institute of Technology, Madras — Remote
Diploma in Programming and Data Science — *Sep 2023 – Sep 2027*

Coursework: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Machine Learning

EXPERIENCE

TruEstate (AllDoors) — Bangalore, India
Software Development Engineer (SDE) Intern — *Jul 2026 – Present*

- Developed the customer-facing **Next.js** and **TypeScript** website for AllDoors from Figma designs, owning the landing and property detail pages; shipped **250+ commits (15K+ lines)** across **5 production repositories**.
- Led the **NoSQL to SQL migration**, restructuring the property data model, writing **NestJS** endpoints and backfill scripts; integrated a **Typesense** search index for fast, typo-tolerant property search.
- Integrated **WhatsApp Cloud API** inquiry templates and reply notifications across a microservice, the API and the CRM; built an analytics dashboard for user acquisition and conversion funnels.

Comparely — Remote
Software Engineering Intern — *Jun 2025*

- Shipped cross-platform mobile interfaces in **React Native** with **Go** backend services for **500+ active users**, reducing API latency by **35%**; analyzed usage funnel data with **SQL** to identify drop-off points.
- Redesigned the onboarding UX, improving user retention by **30%**; deployed modular services with input validation and centralized exception handling, cutting the production error rate by **25%**.

PROJECTS

RAG-Based Document QA System | *Python, FastAPI, GPT-4o, LangChain, Pinecone, MongoDB*

- Engineered a **Retrieval-Augmented Generation (RAG)** pipeline for multi-format documents (PDF, DOCX, images) with **Tesseract OCR** fallback, reducing manual review time by **40%**.
- Implemented dual-layer caching (MongoDB exact match + Pinecone semantic match) with vector search and chunking to cut redundant LLM calls, tuning thresholds on cache hit rate and latency.

ET GenAI Platform: Agentic News Intelligence | *FastAPI, React, LangGraph, Groq Llama 3.3, SSE*

- Architected a 3-node **LangGraph** agent pipeline (fetch, filter, format) streaming personalized briefings over **Server-Sent Events** from 7 live news and market feeds, with grounded Q&A and citations to limit hallucination.

Comment Category Prediction | *Python, LightGBM, XGBoost, scikit-learn, TF-IDF, SQL*

- Trained a **machine learning** classification pipeline on **198,000** samples, achieving a **Macro F1 of 0.817** with LightGBM and outperforming baselines by **7%**.
- Extracted 20+ features (temporal signals, vote ratios, demographic flags) and handled a 57.66% class imbalance using balanced class weights and 3-fold stratified cross-validation.

SyntaxEye: AI Code Review Tool | *React.js, Node.js, Express.js, Gemini API*

- Designed structured **prompt engineering** templates (chain-of-thought, output-format constraints) for the Gemini API to review code for correctness, performance and security, improving response consistency by **30%**.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, Go, C
Frameworks: React.js, Next.js, React Native, Node.js, Express.js, NestJS, FastAPI, Flask, Tailwind CSS
AI/ML: Generative AI, LLMs, RAG, LangChain, LangGraph, Prompt Engineering, Pinecone, scikit-learn, XGBoost
Databases: PostgreSQL, MySQL, MongoDB, SQLite, Redis, Firebase Firestore, BigQuery, Typesense
Cloud and Tools: Docker, Google Cloud Run, Git, GitHub, Linux, Postman, REST APIs, Figma
Soft Skills: Leadership, Team Collaboration, Communication, Problem Solving, Ownership

ACHIEVEMENTS AND LEADERSHIP

- **Amazon ML Summer School 2025:** selected in the top 5% of 60,000+ applicants for Amazon's ML program.
- **LeetCode Knight:** 500+ problems solved, max rating 2006 (top 5% globally); **CodeChef 3-Star** (max rating 1652).
- **Lead Organizer, WomenInDev 2.0 (IIIT Nagpur):** built the event platform and coordinated logistics for **200+ attendees**.
- **Runner-Up, Women in Dev 2024 (Tantrafiesta, IIIT Nagpur):** built AASA, a real-time safety platform.
